I am writing to I wish to express my objection the NAB's petition 04-160. It is a bad petition and is only meant to take XM radio out of competition so that XM listener's are forced to listen to local broadcasts. I benefit from listening to XM Satellite Radio on a daily basis and because I am paying for that right directly and as a private citizen, it is not up the the National Association of Broadcasters to dictate what I can and cannot listen to. Please leave the choice to listen or NOT to listen to programming up to the consumer first, public second, and the regulatory boards last. Who gave the NAB the right to determine who has the right to broadcast the weather and news anyway. This is a service that all consumers need and should have readily available for safety, traffic planning, and normal day to day curiosity.

I respectfully urge the FCC to REJECT the NAB's petition 04-160 and fully support XM's ability to provide me(the paying citizen) with the programming that I demand, deserve, and pay for.

Sincerely,

Joshua wagoner
